

NEW
WhisperCut PLUS
convincing by its efficiency

WhisperCut PLUS

Your efficiency PLUS jointing

Advantages at a glance

- Replacable diamond knives up to 10 times resharpenable in a reusable aluminium body
- Significant noise reduction up to 5 dB(A) from optimised tool body half the weight of steel body
- Trouble free chip clearance plus excellent DFC®-technology chip collection

The new WhisperCut PLUS – convincing by its efficiency

Convincing efficiency

- Up to 10 times resharpenable and replaceable diamond knives in a reusable aluminium body

Extremely quiet

- Optimised aluminium tool body, half the weight of steel, with a noise reduction up to 5 dB(A)

Very low weight

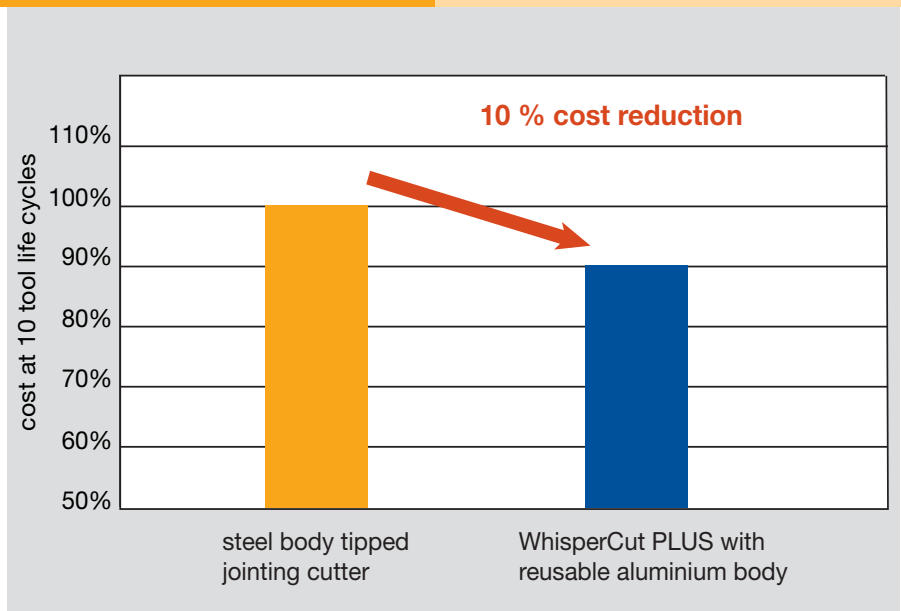

- Halving the tool weight reduces the spindle load and protects the spindle bearings

Perfect chip collecting

- Trouble free chip clearance plus excellent DFC®-technology chip collection

10 % cost reduction with the WhisperCut PLUS from reusability aluminium body and up to 10 times resharpenable diamond knives.

Cost comparison between the Leitz WhisperCut PLUS with reusable aluminium body and a steel body tipped jointing cutter underlines the benefits of WhisperCut PLUS.
